Dear Ms. Do:

On July 12, 2016, representatives of the United States Environmental Protection Agency ("EPA") conducted a RCRA Compliance Evaluation Inspection. The purpose of this inspection was to determine the compliance of Component Technologies Inc., EPA ID No. CTD938876814 with Connecticut Hazardous Waste Regulations RCSA 22a-449(c)-102 and 22a-449(c)-108 and the federal Hazardous Waste Management Regulations found at 40 CFR Parts 260-272. The State of Connecticut has been granted final authorization by EPA to administer certain portions of RCRA.

As a result of the inspection noted above, EPA has determined that your facility violated certain provisions of the Connecticut Hazardous Waste Regulations and the RCRA regulations, promulgated at 40 CFR Parts 260 through 272. The specific violations are set forth below:

1. Failure to maintain adequate aisle space in the Hazardous Waste Storage Area (HWSA). There was inadequate aisle space and the labels on the HWSA containers were not visible for inspection.
2. Failure to maintain a closed Used Oil container, located in the Boiler Room Satellite Accumulation Area (SAA #3).
3. Failure to appropriately label a satellite container of hazardous waste, oil and cleaner, for the Plating lines 7 and 8 Satellite Accumulation Area. The label was hard to read.

Component Technologies Inc. must address the requirements set forth above and must immediately begin and continue to operate in compliance with all Federal and State regulations.

At the time of the inspection, Component Technologies Inc. corrected items 2 and 3 listed above.

Within (30) calendar days of receipt of this **NOTICE**, submit a written description, with supporting documentation, of the actions taken to correct the above items 1:
